

Location : The Domaine des Homs is located in the heart of the Minervois, between Carcassonne and Narbonne.

Terroir : Vineyards on terraces made up of Quaternary Epoch soils, consisting of sharp-edged and weathered clay rocks.
All the parcels are ploughed, under the feet and in between the rows.

Climate : Mediterranean. Particularly hot summers. The Tramontaine wind drives out any humidity, establishing very favorable conditions for viticulture.

Blend : This Vin de Pays des Coteaux de Peyriac consists of 80% GRENACHE that has undergone carbonic maceration, and 20% Syrah.

Yield : 65 Hectoliters per Hectare.

Vineyard Area : 6 Hectares – ORGANIC CULTURE CERTIFIED

Vintage : Mechanical harvesting.

Vinification:

Complete, careful de-stemming, followed by a wo-week-long fermentation under temperature-controlled conditions. Once the ensuing malo-lactic fermentation is finished, the wine is aged in our *chais* for 6 months in lined cement vats. The wines are then bottled. Once bottled, the wines rest for a time in our cellars before being shipped.

When to drink:

With its charm, elegance and red-fruit primary flavors, our VdP des Coteaux de Peyriac Red can be enjoyed in the first year after vintage.
